Author Index

Abu-Gnim, C. and Amer, I.
Influence of (P—N) bidentate ligand on rhodium-catalyzed hydroformylation of olefins L275
Alper, H., see Amer, I. L117
Amer, I. and Alper, H.
A new double carbonylation reaction L117
Amer, I., Schumann, H., Ravindar, V., Baidossi, W., Goren, N. and Blum, J.
A convenient route to 1,3,5-trisubstituted benzenes via rhodium catalyzed polymerization of arylacetylenes 163
Amer, I., see Abu-Gnim, C. L275
Arias, J.L., see Cabrera, A. 279
Arzoumanian, H., Choukrad, M. and Nuel, D.
Palladium and phase transfer catalyzed carbonylation of propargyl derivatives 287
Baidossi, W., Goren, N., Blum, J., Schumann, H. and Hemling, H.
Homogeneous and biphasic oligomerization of terminal alkynes by some water soluble rhodium catalysts 153
Baidossi, W., see Amer, I. 163
Bartik, B., see Bartik, T. 121
Bartik, T., Bartik, B. and Hanson, B.E.
Effect of water on tributylphosphine modified cobalt carbonyl catalysts for the hydroformylation of olefins 121
Blum, J., see Baidossi, W. 153
Blum, J., see Amer, I. 163
Bourin, J.-M., see Bureau, C. 183
Brembilla, A., see Faivre, V. 45
Brotas de Carvalho, M., see Pires, J. 295
Bureau, C., Defranceschi, M., Delhalle, J. and Bourin, J.-M.
Dissociative chemisorption of perfluoropolyethers above reactive sites on nickel surfaces: a theoretical contribution 183
Cabrera, A., Velasco, L., Christ, M.L., Salmón, M. and Arias, J.L.
Organic carbonate activation: aldehyde acetalization study using $Sn[Co(CO)_4]_4$ as catalyst in the activation of propylene carbonate 279
Campelo, J.M., Guardeño, R., Luna, D., Marinas, J.M., Morales, J. and Tirado, J.L.
Metal–support interaction effects in the liquid-phase selective hydrogenation of 1,4-butynediol with nickel catalysts supported on $AlPO_4$ and on other conventional non-reducible compounds 305
Carugo, O., see Castellani, C.B. 65
Castellani, C.B., Carugo, O., Perotti, A., Sacchi, D., Invernizzi, A.G. and Vidari, G.
Rare earth trifluoromethanesulphonates as catalysts in some Meerwein–Ponndorf–Verley type reductions 65
Cenini, S., see Ragaini, F. L1
Chen, L.-C. and Chou, T.-C.
Photobleaching of methyl orange in titanium dioxide suspended in aqueous solution 201
Choi, S.J., Lee, J.S. and Kim, Y.G.
An efficient ruthenium complex catalyst for the carbonylation of methanol to methyl formate L109
Chou, T.-C., see Chen, L.-C. 201
Choukrad, M., see Arzoumanian, H. 287
Christ, M.L., see Cabrera, A. 279
Coq, B., Kumbhar, P.S., Moreau, C., Moreau, P. and Warawdekar, M.G.
Liquid phase hydrogenation of cinnamaldehyde over supported ruthenium catalysts: influence of particle size, bimetallics and nature of support 215
Defranceschi, M., see Bureau, C. 183
Delhalle, J., see Bureau, C. 183
Derouane, E.G., see Pires, J. 295
Domínguez, A., see Rojas, F. 57
Evans, D.J., Kanagasooriam, A., Williams, A. and Pryce, R.J.
Aminolysis of phenyl esters by microgel and dendrimer molecules possessing primary amines 21
Fache, F., Gamez, P., Nour, F. and Lemaire, M.
Thioethers: potential ligands for asymmetric catalysis? 181
Faivre, V., Brembilla, A. and Lochon, P.
Esterolysis of long-chain *p*-nitrophenyl picolinates by hydrophobic Zn^{2+} com-

plexes in the presence of a cationic surfactant 45
Foong, P.C., see Lim, Y.Y. 173
Fujita, M., Fukuzumi, S. and Otera*, J.
Lewis acid vs. Brønsted acid as catalysts in solution. The quantitative comparison of reactivities of carbonyl compounds in the triethylsilyl perchlorate- and perchloric acid-catalyzed hydrosilylation in acetonitrile 143
Fukuzumi, S., see Fujita, M. 143
Gainza, A.E., Rodríguez-Arias, E.N. and Ruette, F.
Pyridine adsorption on a MoS_2 modelled surface (Mo_3S_8). A CNDO molecular orbital study 345
Gamez, P., see Fache, F. 131
Garin, F., see Petit, C. 75
Gaset, A., see Verdeguer, P. 327
Girard, P., see Petit, C. 75
Goren, N., see Baidossi, W. 153
Goren, N., see Amer, I. 163
Guardeño, R., see Campelo, J.M. 305
Hanson, B.E., see Bartik, T. 121
Hemling, H., see Baidossi, W. 153
Hornung, H.J., see Sustmann, R. 149
Iliev, V.
Catalytic oxidation of mercaptans by charcoal-supported sterically hindered cobalt(II)-phthalocyanines L269
Invernizzi, A.G., see Castellani, C.B. 65
Kanagasooriam, A., see Evans, D.J. 21
Katrib, A., see Petit, C. 75
Kim, Y.G., see Choi, S.J. L109
Kornhauser, I., see Rojas, F. 57
Kumbhar, P.S., see Coq, B. 215
Lee, J.S., see Choi, S.J. L109
Lemaire, M., see Fache, F. 131
Lim, Y.Y., Tan, E.H.L. and Foong, P.C.
Autooxidation of catechols in solutions of copper(II) surfactants and hydrated metal ions in sodium dodecyl sulphate 173
Lochon, P., see Faivre, V. 45
López-Gonzalez, J.d.D., see Martín-Aranda, R.M. 253
López-Peinado, A.J., see Martín-Aranda, R.M. 253
Lucini, R., Orlandi, M., Rindone, B., Sebastiano, R. and Todeschini, R.
Factors affecting cytochrome P-450 and horseradish peroxidase-catalyzed oxidative *N*-dealkylation of aromatic tertiary amines. A multivariate approach 97
Luna, D., see Campelo, J.M. 305
Maire, G., see Petit, C. 75
Marinas, J.M., see Campelo, J.M. 305
Martín-Aranda, R.M., Rojas Cervantes, M.L., López-Peinado, A.J. and López-Gonzalez, J.d.D.
Alkaline carbons as base catalysts: Alkylation of imidazole with alkyl halides 253
Mayagoitia, V., see Rojas, F. 57
Merat, N., see Verdeguer, P. 327
Meunier, B., see Robert, A. 13
Minamoto, Y., see Ohkubo, K. L7
Morales, J., see Campelo, J.M. 305
Moreau, C., see Coq, B. 215
Moreau, P., see Coq, B. 215
Nour, F., see Fache, F. 131
Nuel, D., see Arzoumanian, H. 287
Ohkubo, K., Sagawa, T. and Minamoto, Y.
Novel stereoselective monoamine oxidase reaction of chiral iron(III) porphyrins (a cytochrome P-450 model) and enantiomeric amines L7
Orlandi, M., see Lucini, R. 97
Otera , J., see Fujita, M. 143
Patzke, B., see Sustmann, R. 149
Perotti, A., see Castellani, C.B. 65
Petit, C., Katrib, A., Girard, P., Garin, F. and Maire, G.
Catalytic behaviour for skeletal rearrangement of hydrocarbons and surface structures of silica and alumina supported Pt–Mo catalysts 75
Pires, J., Brotas de Carvalho, M., Ramôa Ribeiro, F. and Derouane, E.G.
Carbon dioxide in Y and ZSM-20 zeolites: adsorption and infrared studies 295
Pryce, R.J., see Evans, D.J. 21
Ragaini, F., Cenini, S. and Tollari, S.
Reduction of nitrobenzene to aniline by CO/H_2O, catalyzed by $Ru_3(CO)_{12}$. Strong activating ability of rigid α-diimine ligands L1
Ragosta, J.M., see Weigert, F.J. 237
Ramôa Ribeiro, F., see Pires, J. 295
Ravindar, V., see Amer, I. 163
Riccardo, J.L., see Rojas, F. 57
Rindone, B., see Lucini, R. 97
Robert, A., Tsapara, A. and Meunier, B.
Brominated and chlorinated manganese

chiral Schiff base complexes as epoxidation catalysts 13
Rodríguez-Arias, E.N., see Gainza, A.E. 345
Rojas, F., Mayagoitia, V., Kornhauser, I., Domínguez, A., Riccardo, J.L. and Zgrablich, G.
Simulation of heterogeneous catalytic surfaces 57
Rojas Cervantes, M.L., see Martín-Aranda, R.M. 253
Ruette, F., see Gainza, A.E. 345
Sacchi, D., see Castellani, C.B. 65
Sagawa, T., see Ohkubo, K. L7
Salmón, M., see Cabrera, A. 279
Schumann, H., see Baidossi, W. 153
Schumann, H., see Amer, I. 163
Schupp, T., see Sustmann, R. 149
Sebastiano, R., see Lucini, R. 97
Stacey, K.A., see Weatherhead, R.H. 33
Sustmann, R., Hornung, H.J., Schupp, T. and Patzke, B.
Dimerization of methyl acrylate by homogeneous transition-metal catalysis. Part I. Activation of hydrido(carbonyl)chloro-[bis(triisopropylphosphane)]ruthenium by CF_3SO_3Ag 149
Tan, E.H.L., see Lim, Y.Y. 173
Tirado, J.L., see Campelo, J.M. 305
Todeschini, R., see Lucini, R. 97
Tollari, S., see Ragaini, F. L1
Trotta, F.
Phthalic acid esters hydrolysis under inverse phase-transfer catalysis conditions L265
Tsapara, A., see Robert, A. 13
Velasco, L., see Cabrera, A. 279
Verdeguer, P., Merat, N. and Gaset, A.
Oxydation catalytique du HMF en acide 2,5-furane dicarboxylique 327
Vidari, G., see Castellani, C.B. 65
Warawdekar, M.G., see Coq, B. 215
Weatherhead, R.H., Williams, A. and Stacey, K.A.
Polyethyleneimine derivatives as catalysts: dye-binding capacity and reactivity are not diminished on extensive internal cross-linking of the polymers 33
Weigert, F.J.
Carbon catalyzed polymethylbenzene dealkylation 229
Weigert, F.J. and Ragosta, J.M.
Nickel-on-alumina catalyzed polymethylbenzene dealkylation 237
Williams, A., see Evans, D.J. 21
Williams, A., see Weatherhead, R.H. 33
Zgrablich, G., see Rojas, F. 57

Elsevier Science Publishers B.V., Amsterdam

Subject Index

acetalization
Organic carbonate activation: aldehyde acetalization study using $Sn[Co(CO)_4]_4$ as catalyst in the activation of propylene carbonate 279
adsorption
Simulation of heterogeneous catalytic surfaces 57
Carbon dioxide in Y and ZSM-20 zeolites: adsorption and infrared studies 295
Pyridine adsorption on a MoS_2 modelled surface (Mo_3S_8). A CNDO molecular orbital study 345
alkaline carbon
Alkaline carbons as base catalysts: Alkylation of imidazole with alkyl halides 253
alkylation
Alkaline carbons as base catalysts: Alkylation of imidazole with alkyl halides 253
alkyl-chain benzimidazole ligands
Esterolysis of long-chain *p*-nitrophenyl picolinates by hydrophobic Zn^{2+} complexes in the presence of a cationic surfactant 45
alkynes
Homogeneous and biphasic oligomerization of terminal alkynes by some water soluble rhodium catalysts 153
$AlPO_4$
Metal–support interaction effects in the liquid-phase selective hydrogenation of 1,4-butynediol with nickel catalysts supported on $AlPO_4$ and on other conventional non-reducible compounds 305
alumina
Catalytic behaviour for skeletal rearrangement of hydrocarbons and surface structures of silica and alumina supported Pt–Mo catalysts 75
aminolysis
Aminolysis of phenyl esters by microgel and dendrimer molecules possessing primary amines 21
aromatic tertiary amines
Factors affecting cytochrome P-450 and horseradish peroxidase-catalyzed oxidative *N*-dealkylation of aromatic tertiary amines. A multivariate approach 97
arylacetylenes
A convenient route to 1,3,5-trisubstituted benzenes via rhodium catalyzed polymerization of arylacetylenes 163
asymmetric catalysis
Thioethers: potential ligands for asymmetric catalysis? 131
autooxidation
Autooxidation of catechols in solutions of copper(II) surfactants and hydrated metal ions in sodium dodecyl sulphate 173
basicity
Alkaline carbons as base catalysts: Alkylation of imidazole with alkyl halides 253
bimetallic catalysts
Liquid phase hydrogenation of cinnamaldehyde over supported ruthenium catalysts: influence of particle size, bimetallics and nature of support 215
Brønsted acids
Lewis acid vs. Brønsted acid as catalysts in solution. The quantitative comparison of reactivities of carbonyl compounds in the triethylsilyl perchlorate- and perchloric acid-catalyzed hydrosilylation in acetonitrile 143
1,4-butynediol
Metal–support interaction effects in the liquid-phase selective hydrogenation of 1,4-butynediol with nickel catalysts supported on $AlPO_4$ and on other conventional non-reducible compounds 305
carbon
Carbon catalyzed polymethylbenzene dealkylation 229
carbon dioxide
Carbon dioxide in Y and ZSM-20 zeolites: adsorption and infrared studies 295
carbonylation
An efficient ruthenium complex catalyst for the carbonylation of methanol to methyl formate L109
A new double carbonylation reaction L117
Palladium and phase transfer catalyzed

carbonylation of propargyl derivatives 287
carbonyl complexes
Effect of water on tributylphosphine modified cobalt carbonyl catalysts for the hydroformylation of olefins 121
Organic carbonate activation: aldehyde acetalization study using $Sn[Co(CO)_4]_4$ as catalyst in the activation of propylene carbonate 279
carbonyl compounds
Lewis acid vs. Brønsted acid as catalysts in solution. The quantitative comparison of reactivities of carbonyl compounds in the triethylsilyl perchlorate- and perchloric acid-catalyzed hydrosilylation in acetonitrile 143
carbonyls
Rare earth trifluoromethanesulphonates as catalysts in some Meerwein-Ponndorf-Verley type reductions 65
catechols
Autooxidation of catechols in solutions of copper(II) surfactants and hydrated metal ions in sodium dodecyl sulphate 173
charcoal support
Catalytic oxidation of mercaptans by charcoal-supported sterically hindered cobalt(II)-phthalocyanines 269
chemisorption
Dissociative chemisorption of perfluoropolyethers above reactive sites on nickel surfaces: a theoretical contribution 183
chemoselectivity
Thioethers: potential ligands for asymmetric catalysis? 131
chiral epoxidation catalysts
Brominated and chlorinated manganese chiral Schiff base complexes as epoxidation catalysts 13
cinnamaldehyde
Liquid phase hydrogenation of cinnamaldehyde over supported ruthenium catalysts: influence of particle size, bimetallics and nature of support 215
CNDO molecular orbital study
Pyridine adsorption on a MoS_2 modelled surface (Mo_3S_8). A CNDO molecular orbital study 345
cobalt
Effect of water on tributylphosphine modified cobalt carbonyl catalysts for the hydroformylation of olefins 121
Catalytic oxidation of mercaptans by charcoal-supported sterically hindered cobalt(II)-phthalocyanines 269
Organic carbonate activation: aldehyde acetalization study using $Sn[Co(CO)_4]_4$ as catalyst in the activation of propylene carbonate 279
copper(II) micelles / SDS
Autooxidation of catechols in solutions of copper(II) surfactants and hydrated metal ions in sodium dodecyl sulphate 173
cross-linking
Polyethyleneimine derivatives as catalysts: dye-binding capacity and reactivity are not diminished on extensive internal cross-linking of the polymers 33
cyanide
A new double carbonylation reaction L117
cytochrome P-450
Factors affecting cytochrome P-450 and horseradish peroxidase-catalyzed oxidative *N*-dealkylation of aromatic tertiary amines. A multivariate approach 97
dealkylation
Carbon catalyzed polymethylbenzene dealkylation 229
Nickel-on-alumina catalyzed polymethylbenzene dealkylation 237
dendrimer molecules
Aminolysis of phenyl esters by microgel and dendrimer molecules possessing primary amines 21
dimerization
Dimerization of methyl acrylate by homogeneous transition-metal catalysis. Part I. Activation of hydrido(carbonyl)chloro-[bis(triisopropylphosphane)]ruthenium by CF_3SO_3Ag 149
dye-binding capacity
Polyethyleneimine derivatives as catalysts: dye-binding capacity and reactivity are not diminished on extensive internal cross-linking of the polymers 33
enantioselective reduction
Thioethers: potential ligands for asymmetric catalysis? 131
epoxidation
Brominated and chlorinated manganese

chiral Schiff base complexes as epoxidation catalysts 13
esterolysis rate
Esterolysis of long-chain *p*-nitrophenyl picolinates by hydrophobic Zn^{2+} complexes in the presence of a cationic surfactant 45
free radicals
Carbon catalyzed polymethylbenzene dealkylation 229
2,5-furandicarboxylic acid
Oxydation catalytique du HMF en acide 2,5-furane dicarboxylique 327
halogenated Schiff base complexes
Brominated and chlorinated manganese chiral Schiff base complexes as epoxidation catalysts 13
heterogeneous catalysis
Simulation of heterogeneous catalytic surfaces 57
hexanes
Catalytic behaviour for skeletal rearrangement of hydrocarbons and surface structures of silica and alumina supported Pt-Mo catalysts 75
horseradish peroxidase
Factors affecting cytochrome P-450 and horseradish peroxidase-catalyzed oxidative *N*-dealkylation of aromatic tertiary amines. A multivariate approach 97
hydrodenitrogenation
Pyridine adsorption on a MoS_2 modelled surface (Mo_3S_8). A CNDO molecular orbital study 345
hydroformylation
Effect of water on tributylphosphine modified cobalt carbonyl catalysts for the hydroformylation of olefins 121
Influence of (P—N) bidentate ligand on rhodium-catalyzed hydroformylation of olefins L275
hydrogenation
Liquid phase hydrogenation of cinnamaldehyde over supported ruthenium catalysts: influence of particle size, bimetallics and nature of support 215
Metal–support interaction effects in the liquid-phase selective hydrogenation of 1,4-butynediol with nickel catalysts supported on $AlPO_4$ and on other conventional non-reducible compounds 305
hydrolysis
Phthalic acid esters hydrolysis under inverse phase-transfer catalysis conditions L265
hydrophobic zinc(II) complexes
Esterolysis of long-chain *p*-nitrophenyl picolinates by hydrophobic Zn^{2+} complexes in the presence of a cationic surfactant 45
hydrosilylation
Lewis acid vs. Brønsted acid as catalysts in solution. The quantitative comparison of reactivities of carbonyl compounds in the triethylsilyl perchlorate- and perchloric acid-catalyzed hydrosilylation in acetonitrile 143
hydroxymethyl furfural
Oxydation catalytique du HMF en acide 2,5-furane dicarboxylique 327
imidazole
Alkaline carbons as base catalysts: Alkylation of imidazole with alkyl halides 253
inverse phase-transfer catalysis
Phthalic acid esters hydrolysis under inverse phase-transfer catalysis conditions L265
kinetics
Carbon catalyzed polymethylbenzene dealkylation 229
Nickel-on-alumina catalyzed polymethylbenzene dealkylation 237
Knoevenagel condensation
Alkaline carbons as base catalysts: Alkylation of imidazole with alkyl halides 253
lead
Oxydation catalytique du HMF en acide 2,5-furane dicarboxylique 327
Lewis acids
Lewis acid vs. Brønsted acid as catalysts in solution. The quantitative comparison of reactivities of carbonyl compounds in the triethylsilyl perchlorate- and perchloric acid-catalyzed hydrosilylation in acetonitrile 143
long-chain picolinates
Esterolysis of long-chain *p*-nitrophenyl picolinates by hydrophobic Zn^{2+} complexes in the presence of a cationic surfactant 45
manganese
Brominated and chlorinated manganese

chiral Schiff base complexes as epoxidation catalysts 13
mercaptans
Catalytic oxidation of mercaptans by charcoal-supported sterically hindered cobalt(II)-phthalocyanines 269
methanol
An efficient ruthenium complex catalyst for the carbonylation of methanol to methyl formate L109
methyl acrylate
Dimerization of methyl acrylate by homogeneous transition-metal catalysis. Part I. Activation of hydrido(carbonyl)chloro-[bis(triisopropylphosphane)]ruthenium by CF_3SO_3Ag 149
methylbenzenes
Carbon catalyzed polymethylbenzene dealkylation 229
Nickel-on-alumina catalyzed polymethylbenzene dealkylation 237
methyl formate
An efficient ruthenium complex catalyst for the carbonylation of methanol to methyl formate L109
methyl orange
Photobleaching of methyl orange in titanium dioxide suspended in aqueous solution 201
micellar medium
Esterolysis of long-chain *p*-nitrophenyl picolinates by hydrophobic Zn^{2+} complexes in the presence of a cationic surfactant 45
microgels
Aminolysis of phenyl esters by microgel and dendrimer molecules possessing primary amines 21
molybdenum
Catalytic behaviour for skeletal rearrangement of hydrocarbons and surface structures of silica and alumina supported Pt-Mo catalysts 75
Pyridine adsorption on a MoS_2 modelled surface (Mo_3S_8). A CNDO molecular orbital study 345
Monte Carlo methods
Simulation of heterogeneous catalytic surfaces 57
nickel
A new double carbonylation reaction L117
Dissociative chemisorption of perfluoropolyethers above reactive sites on nickel surfaces: a theoretical contribution 183
Nickel-on-alumina catalyzed polymethylbenzene dealkylation 237
Metal-support interaction effects in the liquid-phase selective hydrogenation of 1,4-butynediol with nickel catalysts supported on $AlPO_4$ and on other conventional non-reducible compounds 305
olefins
Effect of water on tributylphosphine modified cobalt carbonyl catalysts for the hydroformylation of olefins 121
Influence of (P—N) bidentate ligand on rhodium-catalyzed hydroformylation of olefins L275
oligomerization
Homogeneous and biphasic oligomerization of terminal alkynes by some water soluble rhodium catalysts 153
organic carbonates
Organic carbonate activation: aldehyde acetalization study using $Sn[Co(CO)_4]_4$ as catalyst in the activation of propylene carbonate 279
oxidation
Oxydation catalytique du HMF en acide 2,5-furane dicarboxylique 327
oxidative *N*-dealkylation
Factors affecting cytochrome P-450 and horseradish peroxidase-catalyzed oxidative *N*-dealkylation of aromatic tertiary amines. A multivariate approach 97
palladium
Thioethers: potential ligands for asymmetric catalysis? 131
Palladium and phase transfer catalyzed carbonylation of propargyl derivatives 287
perchloric acid
Lewis acid vs. Brønsted acid as catalysts in solution. The quantitative comparison of reactivities of carbonyl compounds in the triethylsilyl perchlorate- and perchloric acid-catalyzed hydrosilylation in acetonitrile 143
perfluoropolyethers
Dissociative chemisorption of perfluoro-

polyethers above reactive sites on nickel surfaces: a theoretical contribution 183
phase transfer catalysis
Palladium and phase transfer catalyzed carbonylation of propargyl derivatives 287
phase transfer catalysts
A new double carbonylation reaction L117
phenyl esters
Aminolysis of phenyl esters by microgel and dendrimer molecules possessing primary amines 21
photobleaching
Photobleaching of methyl orange in titanium dioxide suspended in aqueous solution 201
phthalic acid esters
Phthalic acid esters hydrolysis under inverse phase-transfer catalysis conditions L265
phthalocyanines
Catalytic oxidation of mercaptans by charcoal-supported sterically hindered cobalt(II)-phthalocyanines 269
platinum
Catalytic behaviour for skeletal rearrangement of hydrocarbons and surface structures of silica and alumina supported Pt-Mo catalysts 75
Oxydation catalytique du HMF en acide 2,5-furane dicarboxylique 327
P—N bidentate ligand
Influence of (P—N) bidentate ligand on rhodium-catalyzed hydroformylation of olefins L275
polyethyleneimine
Polyethyleneimine derivatives as catalysts: dye-binding capacity and reactivity are not diminished on extensive internal cross-linking of the polymers 33
polymerization
A convenient route to 1,3,5-trisubstituted benzenes via rhodium catalyzed polymerization of arylacetylenes 163
primary amines
Aminolysis of phenyl esters by microgel and dendrimer molecules possessing primary amines 21
propargyl derivatives
Palladium and phase transfer catalyzed carbonylation of propargyl derivatives 287
propylene carbonate
Organic carbonate activation: aldehyde acetalization study using $Sn[Co(CO)_4]_4$ as catalyst in the activation of propylene carbonate 279
pyridine
Pyridine adsorption on a MoS_2 modelled surface (Mo_3S_8). A CNDO molecular orbital study 345
rare earths
Rare earth trifluoromethanesulphonates as catalysts in some Meerwein-Ponndorf-Verley type reductions 65
reactive sites
Dissociative chemisorption of perfluoropolyethers above reactive sites on nickel surfaces: a theoretical contribution 183
reactivity
Polyethyleneimine derivatives as catalysts: dye-binding capacity and reactivity are not diminished on extensive internal cross-linking of the polymers 33
reductions
Rare earth trifluoromethanesulphonates as catalysts in some Meerwein-Ponndorf-Verley type reductions 65
rhodium
Homogeneous and biphasic oligomerization of terminal alkynes by some water soluble rhodium catalysts 153
A convenient route to 1,3,5-trisubstituted benzenes via rhodium catalyzed polymerization of arylacetylenes 163
Influence of (P—N) bidentate ligand on rhodium-catalyzed hydroformylation of olefins L275
ruthenium
An efficient ruthenium complex catalyst for the carbonylation of methanol to methyl formate L109
Dimerization of methyl acrylate by homogeneous transition-metal catalysis. Part I. Activation of hydrido(carbonyl)chloro-[bis(triisopropylphosphane)]ruthenium by CF_3SO_3Ag 149
scandium
Rare earth trifluoromethanesulphonates as catalysts in some Meerwein-Ponndorf-Verley type reductions 65

Schiff bases
Brominated and chlorinated manganese chiral Schiff base complexes as epoxidation catalysts 13
selectivity
Liquid phase hydrogenation of cinnamaldehyde over supported ruthenium catalysts: influence of particle size, bimetallics and nature of support 215
silica
Catalytic behaviour for skeletal rearrangement of hydrocarbons and surface structures of silica and alumina supported Pt-Mo catalysts 75
skeletal rearrangements
Catalytic behaviour for skeletal rearrangement of hydrocarbons and surface structures of silica and alumina supported Pt-Mo catalysts 75
sulphide
Pyridine adsorption on a MoS_2 modelled surface (Mo_3S_8). A CNDO molecular orbital study 345
surfaces
Simulation of heterogeneous catalytic surfaces 57
surface structures
Catalytic behaviour for skeletal rearrangement of hydrocarbons and surface structures of silica and alumina supported Pt-Mo catalysts 75
tin
Organic carbonate activation: aldehyde acetalization study using $Sn[Co(CO)_4]_4$ as catalyst in the activation of propylene carbonate 279
titanium dioxide
Photobleaching of methyl orange in titanium dioxide suspended in aqueous solution 201
tributylphosphine
Effect of water on tributylphosphine modified cobalt carbonyl catalysts for the hydroformylation of olefins 121
trifluoromethanesulphonates
Rare earth trifluoromethanesulphonates as catalysts in some Meerwein-Ponndorf-Verley type reductions 65
trisubstituted benzenes
A convenient route to 1,3,5-trisubstituted benzenes via rhodium catalyzed polymerization of arylacetylenes 163
water
Effect of water on tributylphosphine modified cobalt carbonyl catalysts for the hydroformylation of olefins 121
zeolites
Carbon dioxide in Y and ZSM-20 zeolites: adsorption and infrared studies 295
